## Summary

Motivated and detail-oriented Information Technology student with a strong passion for **App and Web development**, **UI/UX design**, and **software engineering**. Known for creative problem-solving, strong communication, and a user-focused mindset. Adaptable and quick to learn, with a drive to contribute to innovative teams and deliver high-quality digital solutions. Eager to grow professionally and make a meaningful impact in a dynamic tech environment.

---

## Experience

### Flutter Developer Intern

Technoguide Infosoft Pvt. Ltd. • Anand, Gujarat  
06/2024 - 07/2024

During my internship, I gained hands-on experience in both web and mobile app development. I started with the fundamentals of web development, learning **HTML**, **CSS**, and **JavaScript** to understand UI structuring, styling, and interactivity. Transitioning into **Flutter**, I built several applications including a News App, Weather App and a fully functional Todo App. I also learned how to work with APIs and integrated them into projects. In the final phase, I developed a dynamic News App using Flutter, showcasing my ability to handle real-time data and implement clean UI/UX principles.

Phoenix Institute • Vadodara, Gujarat  
04/2022

---

## Projects

- **QuickMeds- Online Inventory management**

**QuickMeds** is a MERN Stack-based medicine ordering system with a multi-tier user model. Super Admins manage franchises, approve stock requests, while Admins handle stores and employees. The platform streamlines inventory, order processing, and delivery across connected pharmacies.

- **PropertyPulse**

**PropertyPulse** is a PHP & MySQL-based real estate platform for **booking, buying, and financing** homes and plots. It allows users to explore properties, make bookings, and apply for home loans, offering an end-to-end solution for real estate needs.

---

## Extra-Curricular Activities

- **Graphics Head**, GeeksforGeeks Student Chapter – BVM  
Led the design and branding of events, social media content, and promotional materials, contributing to the growth of the coding community on campus.
  - **Graphics Head**, BVM Central Committee  
Designed event posters, banners, and digital assets for institute-level fests and programs, ensuring visual consistency and engaging communication.
-
